

# MATLAB Installation Guide for Inha University

Prof. Mehdi Pirahandeh

February 27, 2025

## 1 Downloading MATLAB

Inha University provides access to multiple software including MATLAB campus license

<https://cic.inha.ac.kr/cic/11080/subview.do>.

To download MATLAB, log in to the MathWorks portal:

<https://www.mathworks.com/academia/tah-portal/inha-university-1066664.html>

If you only need to update your existing MATLAB license, refer to Section 6.

## 2 Creating a MathWorks Account

To create a MathWorks account, use your Inha University email:

- Students  
@inha.edu

Use Google Chrome or Microsoft Edge (Internet Explorer is not supported).

## 3 Logging into MathWorks

Log in to MathWorks and verify your campus license. If the license does not appear, add it manually using the activation key.

## 4 Using MATLAB Online

MATLAB Online allows users to run MATLAB in a web browser:

<https://matlab.mathworks.com>

## 5 Online MATLAB Courses

Free self-paced training is available at MATLAB Academy:

<http://matlabacademy.mathworks.com>

### 5.1 Beginner Courses (Onramp)

- MATLAB Onramp
- Simulink Onramp
- Machine Learning Onramp
- Deep Learning Onramp
- Stateflow Onramp

### 5.2 Advanced Courses

- MATLAB Fundamentals
- Data Processing & Visualization
- MATLAB Programming Techniques
- Machine Learning with MATLAB
- Deep Learning with MATLAB
- Introduction to Symbolic Math
- Solving Nonlinear & Differential Equations
- Introduction to Linear Algebra
- Introduction to Statistical Methods

## 6 License Update Instructions

If you receive a message such as *Your MATLAB license will expire in X days*, follow one of these methods:

1. **Auto-update through MATLAB:**  
Help → Licensing → Update License
2. **Deactivate and Reactivate:**  
Help → Licensing → Deactivate  
Restart MATLAB and reactivate using your MathWorks account.
3. **Manual License Update:**  
Download the updated license file from MathWorks and place it in the MATLAB installation folder.
